Experience

Mobile Developer Intern

OCT 23- Jan 24

KYKY Today OY

As a mobile app developer intern at Kyky Today Oy for three months, where successfully undertook the following projects:

- **Enhanced Authentication Flow:** Revamped the authentication mechanism.
- **Developed One-to-One Chat Feature:** Added direct messaging system, promoting increased user engagement and streamlining communication between buyers and sellers.
- **Optimized Data Management:** Unified mobile app and website Firebase databases into a single robust system, improving development and overall project cost efficiency and enabling streamlined data handling.
- **UI/UX Enhancements:** Led a series of UI/UX enhancements to improve app navigation and design, aimed at boosting user satisfaction and reducing potential usability inquiries post-launch.
- **Cross-Functional Collaboration:** Collaborated with design and strategy teams to translate user requirements into functional features, ensuring the app is well-positioned to capture user interest and drive engagement from day one.

Front-end Developer

2022-2023

Experts Solutions

At Expert Solutions, I led Front-End Development, spearheading the creation of various web and mobile apps using React & React Native for cross-platform functionality. Collaborating closely with the design team, I focused on crafting intuitive user interfaces through responsive design principles and user feedback. I also integrated cost-effective cloud solutions with AWS and GCP, optimizing our applications' performance and scalability while ensuring data security. Additionally, I developed efficient APIs using Node.js, Express, and MongoDB to enhance functionality and user engagement.

Education

MSc Software, Web & Cloud

2023-2025

Tampere University

I have completed my first year of Master's in Software, Web, and Cloud, covering a wide range of programs including Software Design, Large-Scale Software Design, Web Development 1 and 2, Advanced Frontends, Programming Interfaces & Techniques, and more, with an average grade of 3.4. Additionally, I completed a three-month internship at a Finnish startup as a mobile developer, earning 10 ECTS credits integrated into my degree.

Bachelor of Computer Science

2018-2022

GCUF Pakistan

I completed my Bachelor of Computer Science degree from Government College University Faisalabad (GCUF) in Pakistan in 2022, achieving a CGPA of 3.32. During my studies, I focused on courses such as Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Computer Networks, Software Engineering, and Operating Systems.

About Me

Full Stack Developer specializing in React Native, committed to crafting impactful mobile solutions. Skilled in leveraging a suite of technologies including JavaScript, React, React Native, Node.js, AWS Amplify, and Firebase, my forte lies in developing, testing, and deploying cross-platform applications that prioritize user engagement and seamless functionality. I excel in creating intuitive user experiences, with a particular emphasis on leveraging React Native's capabilities for responsive, high-performance apps. In collaborative, innovation-driven environments, I am adept at contributing to projects that bolster digital sales and client engagement, backed by a proactive, analytical mindset and a dedication to continuous learning in the rapidly evolving mobile development landscape

Technical Skills

- Javascript
- React
- React Native
- Next.js
- Typescript
- Firebase
- AWS Amplify
- MongoDB
- Teraform
- Python
- MySQL
- Docker
- PostgreSQL
- Redux

Soft Skills

- Analytical Thinking
- Communication Skills
- Problem Solving
- Proactive
- Adaptability
- Collaborative
